Dear Elias:

I was so pleased to read of your recent election to the National Academy of Engineering and hasten to send you and Artemis my heartiest congratulations on this well deserved recognition. This is great news for you personally, for our Department, for the School of Engineering and for M.I.T.

Sincerely,

Manson

Dear Elias,

I was delighted to learn this week of your election to membership in the National Academy of Engineering, and write to express my congratulations and best wishes.

This is an honor that is richly deserved and fully earned, and I hope that your membership in the Academy will prove to be both stimulating and rewarding.

Sincerely yours,

A handwritten signature in dark ink, appearing to read "Paul E. Gray". The signature is stylized and written in a cursive-like font.

Dear Elias:

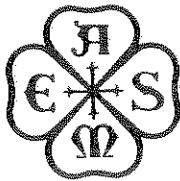

Welcome to the National Academy of Engineering. I am most pleased to see your name among those recently elected to the Academy. This is an honor that is most appropriate.

It has been many years since we have worked together at MIT, but I hold many fond memories of this period. I am just sorry that our paths do not cross more frequently, but hopefully I will now see you at some of the Academy meetings.

Best personal regards,

Dear Professor Gyftopoulos:

It was with great pleasure that I noted your recent election to membership into the National Academy of Engineering. I wish to offer you the Society's and my personal congratulations for this additional recognition of your achievements. We in ASME are exceptionally proud of the excellence of our membership and deem such external recognition as corroboration of what we already know.

This year's election has added eight members of the Society to an already lengthy list of ASME members so elected. Again, congratulations!

Sincerely yours,

C. E. Jones

Dear Elias,

This is a note congratulating you on your election to the National Academy of Engineering. From my contact with you at M.I.T. while I was a student, I gained an appreciation of your talent and enthusiasm for the blending of science and engineering. I believe you have long deserved your present honor and wish to add my voice to that of others at this time.

My very best regards to you and your family.

Sincerely,

Dear Elias:

Congratulations on your election to the National Academy of Engineering. At the 1965 MIT Commencement my son Mike, then a toddler, now a Junior at Wesleyan, stood up and said for all about to hear "That's Professor Gyftopoulos, he's a friend of mine". It's always heartening to see a friend receive the recognition he deserves.

Sincerely

Dear Elias,

I was delighted to learn recently that you have been elected to membership in the National Academy of Engineering, and both Jean and I send you our hearty congratulations. This recognition is long overdue and you richly deserve it.

I hope that your busy schedule will permit you to give some time to NAE committee activities, even though I feel certain that you have been active with Research Council business in the past just because get called upon for such activities in the normal course of your professional work. Frankly, I don't know how you accomplish so much with only 24 hours in a day.

Jean is now finishing a water color painting she started while we were in Pantoreme during our Greek Isles cruise. It looks great.

We both send you and Artemus our love,
also you father,

Sincerely

Gordon & Jean
